Rewriting Ancient Jewish History Amram Tropper, 2016-04-20 Half a century ago, the primary contours of the history of the Jews in Roman times were not subject to much debate. This standard account collapsed, however, when a handful of insights undermined the traditional historical method, the method long enlisted by historians for eliciting facts from sources. In response to these insights, a new historical method gradually emerged. Rewriting Ancient Jewish History critiques the traditional historical method and makes a case for the new one, illustrating how to write anew ancient Jewish history. At the
heart of the traditional historical method lie three fundamental presumptions. The traditional historical method regularly
presumes that multiple versions of a text or tradition are equally authentic; it presumes that many ancient Jewish sources are
the products of largely immanent forces of cloistered Jewish communities; and, barring any local grounds for suspicion, it
presumes that most ancient Jewish texts faithfully reflect their sources and reliably recount events. Rewriting Ancient Jewish
History unfurls the failings of this approach; it promotes the new historical method which circumvents the flawed traditional
presumptions while plotting anew the limits of rational argumentation in historical inquiry. This crucial reappraisal is a must-
read for students of Jewish and Roman history alike, and a fascinating case-study in how historians should approach their
ancient sources.

**Enoch from Antiquity to the Middle Ages** John C. Reeves, Annette Yoshiko Reed, 2018
This volume provides a comprehensive set of core references to ‘1 Enoch’. It shows that the rich afterlives of Enochic texts and traditions can be studied more thoroughly by scholars of Second Temple Judaism and early Christianity as well as by scholars of late antique and medieval religions.

**Death and Afterlife in Ancient Jewish and Christian Literature** Pau Figueras, 2019-12-17
This handbook explores beliefs of ancient Jews and Christians surrounding death and the afterlife through the lens of texts ranging from the Old Testament and New Testament, to Second Temple period and rabbinic literature, to early Christian writings. Figueras further brings together eschatological texts from Iran, Egypt, Greece, and Rome as comparanda, and provides context and bibliography to guide readers in their study of ancient Jewish and Christian views of death and the afterlife.

**Judaism in Late Antiquity 1. The Literary and Archaeological Sources** Jacob Neusner, 2015-11-02
This volume introduces the sources of Judaism in late antiquity to scholars in adjacent fields, such as the study of the Old and New Testaments, Ancient History, the ancient Near East, and the history of religion. In two volumes, leading American, Israeli, and European specialists in the history, literature, theology, and archaeology of Judaism offer factual answers to the two questions that the study of any religion in ancient times must raise. The first is, what are the sources — written and in material culture — that inform us about that religion? The second is, how have we to understand those sources in reconstructing the history of various Judaic systems in antiquity. The chapters set forth in simple statements, intelligible to non-specialists, the facts which the sources provide. Because of the nature of the subject and acute interest in it, the specialists also raise some questions particular to the study of Judaism, dealing with its historical relationship with nascent Christianity in New Testament times. The work forms the starting point for the study of all the principal questions concerning Judaism in late antiquity and sets forth the most current, critical results of scholarship.

**The Oxford Handbook of Late Antiquity** Scott Fitzgerald Johnson, 2015-11
Late antiquity extends from the accession of the Christian emperor Constantine to the rise of Muhammad and early Islam (ca. 300-700 AD). This volume takes account of
the scholarship published in the last 30 years and provide a foundational synthesis for students of late antiquity.

**A History of Judaism** Martin Goodman, 2019-11-19

Judaism is one of the oldest religions in the world, and it has preserved its distinctive identity despite the extraordinarily diverse forms and beliefs it has embodied over the course of more than three millennia. **A History of Judaism** provides the first truly comprehensive look in one volume at how this great religion came to be, how it has evolved from one age to the next, and how its various strains, sects, and traditions have related to each other. In this magisterial and elegantly written book, Martin Goodman takes readers from Judaism's origins in the polytheistic world of the second and first millennia BCE to the temple cult at the time of Jesus. He tells the stories of the rabbis, mystics, and messiahs of the medieval and early modern periods and guides us through the many varieties of Judaism today. Goodman's compelling narrative spans the globe, from the Middle East, Europe, and America to North Africa, China, and India. He explains the institutions and ideas on which all forms of Judaism are based, and masterfully weaves together the different threads of doctrinal and philosophical debate that run throughout its history.--

**Judaism in Late Antiquity** Jacob Neusner, J Avery-Peck, 2023-12-14

This collection of systematic Auseinandersetzungen articulates difference and spells out what is at issue. Learning atrophies when political consensus substitutes for criticism, and when other than broadly-accepted viewpoints, approaches, and readings find a hearing only with difficulty, if at all. The editors therefore have invited colleagues systematically to outline their views in an Auseinandersetzung with contrary ones. The several participants explain how, in broad and sweeping terms, they see the state of learning in their areas of special interest. The editors invited leading players in the USA, Europe, and the State of Israel, in the study of ancient Judaism, both in Second Temple Times and after 70 C.E. The work commences with a thoroughly fresh perspective of a theoretical question: what, in a religion so concerned with social norms and public policy, can we possibly mean by law when we speak of law in Judaism. It then proceeds with two chapters on Second Temple Judaism, and two on the special subject of the Dead Sea library. The two papers in the present part provide an overview of matters and a systematic, critical account of the fading consensus, respectively. The next set of papers ought to stand as the definitive account of the diverse viewpoints on a basic question of method. Because of the willingness of contending parties to meet one another in a single frame of discourse, the work is able to portray with considerable breadth the presently-contending viewpoints concerning the use of Rabbinic literature for historical purposes. Then proceed a number of other accounts of how matters look from the perspective of major participants in scholarly debate. At the same time as the requirements of historical-critical reading of the Rabbinic literature precipitated sustained and vigorous debate, other problems have attracted attention. Among these a critical issue emerges in the hermeneutics to govern the reading of the documents for the purposes of other-than-historical study, feminist interests, for example.

**Pirqei deRabbi Eliezer: Structure, Coherence, Intertextuality** Katharina E. Keim, 2016-11-01

In *Pirqei deRabbi*

Perspectives on Early Islamic Art in Jerusalem Lawrence Nees, 2015-09-17 In Perspectives on Early Islamic Art in Jerusalem, Lawrence Nees analyzes early Islamic monuments on the Haram al-Sharif, or the Temple Mount: the Dome of the Chain, and the capitals with figures of eagles in the Dome of the Rock.

The Literature of the Sages, 2022-07-11 This volume abandons the document-based approach of standard introductions and investigates aggregates of classical rabbinic texts through three broad perspectives – intertextuality, east and west, halakhah and aggadah – generating fresh insights that will reset the scholarly agenda.

De Sion Exibit Lex Et Verbum Domini de Hierusalem Yitzhak Hen, 2001 Amnon Linder, professor of medieval history at the Hebrew University of Jerusalem has published two seminal studies in the history of the Christian Holy Land and in Jewish-Christian relations in Late Antiquity and the Middle Ages (Jerusalem-Toronto, 1987 and 1997 respectively) but in recent years has dedicated himself to the study of medieval liturgy, particularly Crusader liturgy of the liberation and destruction of Jerusalem. The essays gathered here from friends; colleagues and students of Prof. Linder pick up the themes of Linders publications - medieval law, liturgy and literature. The papers deal with a variety of sources and encompass the fourth to fifteenth centuries and span from the Holy Land to the British Isles and present different methodologies. They are organized chronologically and comprise the following papers: O. Limor; Reading Sacred Space: Egeria; Paula; and the Christian Holy Land B.-S. Albert; Le judaïsme et les juifs dans l'hagiographie et la liturgie visigothique Y. Hen; Educating the Clergy; Canon Law and Liturgy in a Carolingian Handbook from the Time of Charles the Bald B. Z. Jerusalem and Other Holy Places as Foci of Multireligious and Ideological Confrontation, 2020-12-07 Jerusalem and Other Holy Places as Foci of Multireligious and Ideological Confrontation demonstrates the variety in the study of holy places, as well as the flexibility of geographic and historical aspects of holiness.

Judaism in Late Antiquity Jacob Neusner, Alan Jeffery Avery-Peck, 1995 In two volumes, leading American, Israeli, and European specialists in the history, literature, theology, and archaeology of Judaism offer factual answers to the two
questions that study of any religion in ancient times must raise. The first is, what are the sources written and in material
culture that inform us about that religion? The second is, how do we understand those sources in the reconstruction of the
history of various Judaic systems in antiquity. The historical relationship of Judaism with nascent Christianity in New
Testament times is also treated.

**The Oxford Handbook of Early Christian Studies** Susan Ashbrook Harvey, David G. Hunter, 2008-09-05 The Oxford Hand-Book of Early Christian Studies responds to and celebrates the explosion of research in this inter-disciplinary field over
recent decades. As a one-volume reference work, it provides an introduction to the academic study of early Christianity (c.
100-600 AD) and examines the vast geographical area impacted by the early church, in western and eastern late antiquity. It
is thematically arranged to encompass history, literature, thought, practices, and material culture. It contains authorita-
tive and up-to-date surveys of current thinking and research in the various sub-specialties of early Christian studies, written by
leading figures in the discipline. The essays orientate readers to a given topic, as well as to the trajectory of research
developments over the past 30-50 years within the scholarship itself. Guidance for future research is also given. Each essay
points the reader towards relevant forms of extant evidence (texts, documents, or examples of material culture), as well as to
the appropriate research tools available for the area. This volume will be useful to advanced undergraduate and post-
graduate students, as well as to specialists in any area who wish to consult a brief review of the 'state of the question' in a
particular area or sub-specialty of early Christian studies, especially one different from their own.

**A Handbook on the Jewish Roots of the Gospels** Craig Evans, David Mishkin, 2022 A survey of the historical, theo-
logical, and practical issues of reading the Gospels as Jewish literature. Includes over thirty articles by well-known experts on
current topics relating to Jesus and the Gospels in light of new developments in archaeology, ancient texts, and Jewish
society in late antiquity--

**Knowledge Construction in Late Antiquity** Monika Amsler, 2023-04-03 Social Studies of the sciences have long ana-
yzed and exposed the constructed nature of knowledge. Pioneering studies of knowledge production in laboratories (e.g.,
Latour/Woolgar 1979; Knorr-Cetina 1981) have identified factors that affect processes that lead to the generation of scientific
data and their subsequent interpretation, such as money, training and curriculum, location and infrastructure, biography-
based knowledge and talent, and chance. More recent theories of knowledge construction have further identified different
forms of knowledge, such as tacit, intuitive, explicit, personal, and social knowledge. These theoretical frameworks and
critical terms can help reveal and clarify the processes that led to ancient data gathering, information and knowledge
production. The contributors use late-antique hermeneutical associations as means to explore intuitive or even tacit
knowledge; they appreciate mistakes as a platform to study the value of personal knowledge and its premises; they think
about rows and tables, letter exchanges, and schools as platforms of distributed cognition; they consider walls as venues for
social knowledge production; and rethink the value of social knowledge in scholarly genealogies—then and now.

**The Tragedy of Empire** Michael Kulikowski, 2019-11-19 Michael Kulikowski traces two hundred years of Roman history during which the Empire became ungovernable and succumbed to turbulence and change. A sweeping political narrative, The Tragedy of Empire tells the story of the Western Roman Empire’s downfall, even as the Eastern Empire remained politically strong and culturally vibrant.

**Jewish Studies on Premodern Periods** Carl S. Ehrlich, Sara R. Horowitz, 2023-05-22 This volume examines new developments in the fields of premodern Jewish studies over the last thirty years. The essays in this volume, written by leading experts, are grouped into four overarching temporal areas: the First Temple, Second Temple, Rabbinic, and Medieval periods. These time periods are analyzed through four thematic methodological lenses: the social scientific (history and society), the textual (texts and literature), the material (art, architecture, and archaeology), and the philosophical (religion and thought). Some essays offer a comprehensive look at the state of the field, while others look at specific examples illustrative of their temporal and thematic areas of inquiry. The volume presents a snapshot of the state of the field, encompassing new perspectives, directions, and methodologies, as well as the questions that will animate the field as it develops further. It will be of interest to scholars and students in the field, as well as to educated readers looking to understand the changing face of Jewish studies as a discipline advancing human knowledge.

**The Oxford Handbook of Ancient Biography** Koen De Temmerman, 2020-09-03 This Handbook presents the first wide-ranging survey on biography in Antiquity from its earliest representations to Late Antiquity. It offers in-depth readings of key texts and diachronic studies, examines biographical depictions in different textual and visual media, and deals with the reception of ancient biography across multiple eras.

**The Origins of Organized Charity in Rabbinic Judaism** Gregg Gardner, 2015-06-04 Charity is a central concept of Judaism and a hallmark of Jewish giving is to provide for the poor in collective and anonymous ways. This book examines the origins of these ideas in the foundational works of rabbinic Judaism, texts from the second to third centuries C.E.

**Identity and Territory** Eyal Ben-Eliyahu, 2019-04-30 Throughout history, the relationship between Jews and their land has been a vibrant, much-debated topic within the Jewish world and in international political discourse. Identity and Territory explores how ancient conceptions of Israel—of both the land itself and its shifting frontiers and borders—have played a decisive role in forming national and religious identities across the millennia. Through the works of Second Temple period Jews and rabbinic literature, Eyal Ben-Eliyahu examines the role of territorial status, boundaries, mental maps, and holy sites, drawing comparisons to popular Jewish and Christian perceptions of space. Showing how space defines nationhood and how Jewish identity influences perceptions of space, Ben-Eliyahu uncovers varied understandings of the land that resonate with contemporary views of the relationship between territory and ideology.
Judaism in Late Antiquity 3. Where we Stand: Issues and Debates in Ancient Judaism Jacob Neusner, Alan Avery-Peck, 2016-11-14 This collection of systematic Auseinandersetzungen articulates difference and spells out what is at issue. Handbook of Jewish Literature from Late Antiquity, 135-700 CE Fergus Millar, Eyal Ben-Eliyahu, Yehudah Cohn, 2013-01-10 A clear account of all the Jewish literature produced in Late Antiquity in either Palestine or Babylonia, aiming above all to orientate students and interested non-specialists as regards what types of literature are involved and how access can be gained to texts and translations.

The Mediterranean Diaspora in Late Antiquity Ross Shepard Kraemer, 2020-02-07 The Mediterranean Diaspora in Late Antiquity examines the fate of Jews living in the Mediterranean Jewish diaspora after the Roman emperor Constantine threw his patronage to the emerging orthodox (Nicene) Christian churches. By the fifth century, much of the rich material evidence for Greek and Latin-speaking Jews in the diaspora diminishes sharply. Ross Shepard Kraemer argues that this increasing absence of evidence is evidence of increasing absence of Jews themselves. Literary sources, late antique Roman laws, and archaeological remains illuminate how Christian bishops and emperors used a variety of tactics to coerce Jews into conversion: violence, threats of violence, deprivation of various legal rights, exclusion from imperial employment, and others. Unlike other non-orthodox Christians, Jews who resisted conversion were reluctantly tolerated, perhaps because of beliefs
that Christ's return required their conversion. In response to these pressures, Jews leveraged political and social networks for legal protection, retaliated with their own acts of violence, and sometimes became Christians. Some may have emigrated to regions where imperial laws were more laxly enforced, or which were under control of non-orthodox (Arian) Christians. Increasingly, they embraced forms of Jewish practice that constructed tighter social boundaries around them. The Mediterranean Diaspora in Late Antiquity concludes that by the beginning of the seventh century, the orthodox Christianization of the Roman Empire had cost diaspora Jews—and all non-orthodox persons, including Christians—dearly.

**Judaism in the Roman World** Martin Goodman, 2007 These collected studies, previously published in diverse places between 1990 and 2006, discuss important and controversial issues in the study of the development of Judaism in the Roman world from the first century C.E. to the fifth.

**Identity and Territory** Eyal Ben-Eliyahu, 2019-04-30 Throughout history, the relationship between Jews and their land has been a vibrant, much-debated topic within the Jewish world and in international political discourse. Identity and Territory explores how ancient conceptions of Israel—of both the land itself and its shifting frontiers and borders—have played a decisive role in forming national and religious identities across the millennia. **A Legacy of Learning** Alan Avery-Peck, Bruce D. Chilton, William Scott Green, Gary Porton, 2014-10-16 The questions Jacob Neusner has asked have shaped how scholars today approach the rabbinic literature. These essays honor that legacy, addressing topics in early Judaism, Judaism’s relationship to Christianity and other religions, American Judaism, and the role of humanistic study today.

**The Oxford Handbook of Jewish Daily Life in Roman Palestine** Catherine Hezser, 2020-04-21 Written by an international and interdisciplinary team of distinguished scholars, The Oxford Handbook of Jewish Daily Life in Roman Palestine is an indispensable reference compendium on the day-to-day lives of Jews in the land of Israel in Roman times. Ranging from subjects such as clothing and domestic architecture to food and meals, labour and trade, and leisure time activities, the volume covers all the major themes in an encompassing yet easily accessible way. Individual chapters introduce the reader to the current state of research on particular aspects of ancient Jewish everyday life—research which has been greatly enriched by critical methodological approaches to rabbinic texts, and by the growing interest of archaeologists in investigating the lives of ordinary people. Detailed bibliographies inspire further engagement by enabling readers to pursue their own lines of enquiry. The Handbook will prove to be an invaluable reference work and tool for all students and scholars of ancient
Judaism, rabbinic literature, Roman provincial history and culture, and of ancient Christianity.

**Judaism in Late Antiquity: The literary and archaeological sources** Jacob Neusner, Alan Jeffery Avery-Peck, 1995

In two volumes, leading American, Israeli, and European specialists in the history, literature, theology, and archaeology of Judaism offer factual answers to the two questions that study of any religion in ancient times must raise. The first is, what are the sources written and in material culture that inform us about that religion? The second is, how do we understand those sources in the reconstruction of the history of various Judaic systems in antiquity. The historical relationship of Judaism with nascent Christianity in New Testament times is also treated.

**The New Cambridge Companion to Biblical Interpretation** Ian Boxall, Bradley C. Gregory, 2022-12-22

This Cambridge Companion offers an up-to-date and accessible guide to the fast-changing discipline of biblical studies. Written by scholars from diverse backgrounds and religious commitments – many of whom are pioneers in their respective fields – the volume covers a range of contemporary scholarly methods and interpretive frameworks. The volume reflects the diversity and globalized character of biblical interpretation in which neat boundaries between author-focused, text-focused, and reader-focused approaches are blurred. The significant space devoted to the reception of the Bible – in art, literature, liturgy, and religious practice – also blurs the distinction between professional and popular biblical interpretation. The volume provides an ideal introduction to the various ways that scholars are currently interpreting the Bible. It offers both beginning and advanced students an understanding of the state of biblical interpretation, and how to explore each topic in greater depth.

**The Routledge Handbook of Jews and Judaism in Late Antiquity** Catherine Hezser, 2024-01-24

This volume focuses on the major issues and debates in the study of Jews and Judaism in late antiquity (third to seventh century C.E.), providing cutting-edge surveys of the state of scholarship, main topics and research questions, methodological approaches, and avenues for future research. Based on both Jewish and non-Jewish literary and material sources, this volume takes an interdisciplinary approach involving historians of ancient Judaism, scholars of rabbinic literature, archaeologists, epigraphers, art historians, and Byzantinists. Developments within Jewish society and culture are viewed within the respective regional, political, cultural, and socioeconomic contexts in which they took place. Special focus is given to the impact of the Christianization of the Roman Empire on Jews, from administrative, legal, social, and cultural points of view. The contributors examine how the confrontation with Christianity changed Jewish practices, perceptions, and organizational structures, such as, for example, the emergence of local Jewish communities around synagogues as central religious spaces. Special chapters are devoted to the eastern and western Jewish Diaspora in Late Antiquity, especially Sasanian Persia but also Roman Italy, Egypt, Syria and Arabia, North Africa, and Asia Minor, to provide a comprehensive assessment of the situation and life experiences of Jews and Judaism during this period. The Routledge Handbook of Jews and Judaism in Late Antiquity is a critical and
methodologically sophisticated survey of current scholarship aimed primarily at students and scholars of Jewish Studies, Study of Religions, Patristics, Classics, Roman and Byzantine Studies, Iranology, History of Art, and Archaeology. It is a valuable resource for anyone interested in Judaism and Jewish history.

**A Scripture Index to Rabbinic Literature** Caleb T. Friedeman, James D. Cuénod, Jennifer Hale, Jonathan F. Harris, Spencer R. Healey, Lucia M. Sanders, Stephen C. Wunrow, 2021

A Scripture Index to Rabbinic Literature is a comprehensive Scripture index that catalogs approximately 90,000 references to the Bible found in classical rabbinic literature. This literature comprises two categories: (1) Talmudic literature (i.e., the Mishnah and related works) and (2) midrashic literature (i.e., biblical commentary). Each rabbinic reference includes a hard citation following SBL Handbook of Style, the page number where the reference can be found in a standard English edition, and an indication of whether the biblical reference is a direct citation, allusion, or editorial reference. -- Back cover

**Handbook of Jewish Literature from Late Antiquity, 135-700 CE** Eyal Ben Eliyahu, Yehudah Cohn, Fergus Millar, 2012

From major seminal works like the Mishnah or the Palestinian and Babylonian Talmuds, to Biblical commentaries, translations of Biblical books into Aramaic or relatively little-known mystical, liturgical or apocalyptic writings, here is a complete guide to the rich tradition of Jewish literature in the second to seventh centuries of the Common Era. Each work is described in a succinct and clearly structured entry which covers its contents, dating, language and accessibility (or otherwise) in print or online. The aim throughout is to cover all of this literature and to answer the following questions. What Jewish literature, written either in Hebrew or Aramaic, has survived? What different genres of such literature are there? What printed texts, or translations into any modern language, or commentaries (either in Hebrew or a European language) are there? And, for those who want to enquire further, what are the manuscripts on which modern editions are based? This handbook will be of value to scholars and students of Jewish Studies and historians of Late Antiquity, as well as scholars in neighbouring disciplines, such as Near Eastern history or Theology. --

Spaces in Late Antiquity Juliette Day, Raimo Hakola, Maijastina Kahlos, Ulla Tervahauta, 2016-05-26

Places and spaces are key factors in how individuals and groups construct their identities. Identity theories have emphasised that the construction of an identity does not follow abstract and universal processes but is also deeply rooted in specific historical, cultural, social and material environments. The essays in this volume explore how various groups in Late Antiquity rooted their identity in special places that were imbued with meanings derived from history and tradition. In Part I, essays explore the tension between the Classical heritage in public, especially urban spaces, in the form of ancient artwork and civic celebrations and the Church's appropriation of that space through doctrinal disputes and rival public performances. Parts II and III investigate how particular locations expressed, and formed, the theological and social identities of Christian and Jewish groups by bringing together fresh insights from the archaeological and textual evidence. Together the essays here demonstrate how the use and interpretation of shared spaces contributed to the self-identity of specific groups in Late Antiquity and in so doing issued challenges, and caused conflict, with other social and religious groups.
